

Bike Tech – Full Time and Part Time

A Bike Tech is expected to be well-versed in repair of all types of bikes, as well as gear related to cycling (including but not limited to: wheel repair, wheel trueing, electronic shifting, power meters, bike computers). Bike Techs should also have a strong knowledge of store product and be able to assist sales associates with sales if needed.

Bike Tech's Responsibilities:

- Perform tune ups and service on bikes
- Fix flat tires and minor repairs as soon as they come in
- Build Bikes
- Assist in retail as needed
- Provide neutral bike support at sponsored races/events
- Ensure that the mechanics work space is clean and tidy at end of day
- Effectively utilize the Service portion of the Lightspeed system
- Make sure bike tires on bikes on floor for sale are pumped on a regular basis

Pay is hourly and based on experience and knowledge of bike service.

Benefits are available for full time positions.
